

**COMMISSION FOR ACCREDITATION AND
QUALITY ASSURANCE**

**A GUIDE THROUGH ACCREDITED STUDY
PROGRAMS IN THE INSTITUTIONS OF HIGHER
EDUCATION IN SERBIA**

26.08.2011.

Introduction

This electronic publication contains the information about the institutions of higher education and study programs accredited by the Commission for Accreditation and Quality Assurance (CAQA) till 26 August 2011. The Guide also contains the information about the institutions and study programs accredited by the National Council of Higher Education (NCHE) within the appeal procedure, contained in the list sent to the CAQA by the NCHE.

The publication is, above all, intended for prospective students who will decide upon the study program and institution of higher education they want to be admitted to. In accordance with the Law of Higher Education and current practice, only the accredited programs can be recommended to prospective students, and thus the publication contains only the programs accredited to its date of publishing. The information about the institutions and study programs in the process of accreditation can be found on the Commission web page www.kapk.org . All the subsequent accreditation decisions by the Commission will be available on the above web page, enabling prospective students to check if the study program or institution of interest is accredited, although not contained in this publication.

The CAQA advises prospective students to choose wisely and wishes them successful studies.
